

Harness The Power Of Open Source Developers

FundRequest Affiliation Network

FundRequest offers an easy and secure way to request development bugfixes, security audits or new features to the Open Source developer community. By allowing developers to get paid for contributing to the projects they love and by building on top of existing platforms such as GitHub we tap into millions of developers.

Benefits

- Fund your development
- Attract talented developers
- Enrich your community
- Increase brand awareness

Features

- Pay with your own token
- Seamless GitHub integration
- In-App support
- Browser extension
